Parent Information

Self-Advocacy Student Support Groups Planned

All District 67 schools are pleased to be offering Self-Advocacy Student Support Groups, designed as part of ongoing efforts to reduce the occurrence and impact of bullying. These groups, set to begin in October, will meet once per week for six weeks. A school social worker or school psychologist will facilitate the groups. If this opportunity might be of interest to your son or daughter, or if you have any questions, please e-mail Joe Malin, Student Services Coordinator, jmalin@lfelem.lfc.edu.

Parents Invited to Join Bullying Prevention Committee

Lake Forest School District 67 is seeking interested parents to serve as valued participants on a Bullying Prevention Committee. The committee will begin meeting in early October. This committee is intended to identify bullying-related issues occurring within the school community as well as to review best practices for combating them. This will be done in order to develop a recommendation for going forward in bullying prevention efforts. This committee will include parents, students, school staff, and other representatives. We are seeking a cross-section of parents so that all schools will be represented. If you would like to be considered for this opportunity, please contact e-mail Joe Malin, Student Services Coordinator, jmalin@lfelem.lfc.edu.
